HOLLY TREES

4357 Holly Tree 14”T x 12”W, 17” on base

4358 Holly Tree Plain Oval Base 3”T x 9.75”W

4359 Holly Tree Holly Oval Base ”T x 9.75”W

PREPARATION: Cut out tree as shown and place all holes as desired for lights. Place all holes in base for electrical.

LIGHT GREEN TREE AND BASE

To greenware or bisque tree and holly on base apply 3 coats of China White underglaze, fire to cone 04. To tree and holly on base apply a medium wash of SC-8 Just Froggy, wipe off most of the glaze with a damp sponge, leaving only the wash in the leaf detail and deep areas of the leaves. Apply a medium thin wash of Green Thumb as even as possible over the entire tree and holly on base, wipe off edges of the leaves. Apply two coats of FN-001 White to the entire base avoiding the holly and the berries. Apply three coats of SC-74 Hot Tamale to the berries and the base trim. Apply 2 coats of S-2101 Crystal Clear Brushing to the tree and holly on base. Clean glaze from all clogged or semi clogged holes and fire to cone 06.

DARK GREEN AND RED BASE

To 04 bisque apply 1 coat of FN-001 White followed with 2 heavy coats or three regular coats of FN-219 Luster Green. Wipe away glaze from the berries and apply 3 coats of SC-74 Hot Tamale to berries and base. Clean glaze from all clogged or semi clogged holes and fire to cone 06. Apply gold overglaze to base trim and fire to cone 017.
